### **Liquidity Requirements**

Liquidity is deemed to be cash held in the pension bank account. If an investment provider can facilitate an addendum, to call on funds, then contingency funds may be invested.

< €500k 2 years' fees plus 2 % contingency.

> €500k 2 years' fees plus 1% contingency.

We require sufficient liquidity to cover fees for the term of any investment plus contingency.

ARF – In addition to the above, 2 years imputed distribution must be held in liquidity if the client has reached age 60. Where borrowing exists, an additional 12 months' mortgage repayments must be held in liquidity. Newcourt reserves the right to review liquidity requirements and may be determined on the investments held.
